

BIOTECHNOLOGY 2004

VI International Specialised Exhibition

V Scientific and Technical Forum

BIOTECHNOLOGY AND THE PRESENT

Saint Petersburg, Russia

1st Announcement

1-3 June 2004

EAPB

*Under the auspices of the European Association of Pharma Biotechnology (EAPB) –
www.eapb.org*

ORGANIZERS:

- ? Ministry of Industry, Science and Technology of Russian Federation, Russia
- ? Ministry of Health of the Russian Federation
- ? Russian Academy of Sciences
- ? Russian Academy of Medical Sciences
- ? European Association of Pharma Biotechnology, Germany
- ? Association of Medical Industry Enterprises of Saint Petersburg and North-Western Region, Russia
- ? International Association of Developers, Producers and Users of Medical Technics
- ? Turku Bio Valley Ltd., Finland
- ? Biotechconsult, Finland
- ? State Scientific Center of Especially Pure Preparation, Russia
- ? SIVEL Exhibition Company, Russia

EXHIBITION PROGRAMME

Medicine and Pharmacy:

Antibiotics; Hormones; Vaccines; Serums; Ferments; Proteins; Gene therapy; Diagnostics; Equipment; Laboratory equipment; Containers; packaging, storage, marking and transportation; Certification, standardization and licensing.

Biotechnology in Food:

Aromatic substances; Enzymes; Additives; Stabilizers; Microbiological analysis; Dairy production; Equipment; Containers, packaging, transportation; Biotechnology in vine processing; Storage technologies; Certification, standardization and licensing.

Agricultural Biotechnology:

Animal food and additives; Transgenic plants; Industrial raw materials; Resistance in plant cultivation; Equipment; Containers, packaging, storage, marking and transportation.

Environmental Biotechnology:

Marine biotechnology; Biotechnological sewage treatment; Biotechnological soil remediation; Ground water protection; Utilization of organic residues and waste products; Environmental management.

Equipment for Biotechnological Industry:

Biogeotechnology

Processes and apparatus for Biotechnological Enterprises and Laboratory Researches

Laboratory and Analytical Equipment and Biosafety

Informational supports

Standardization and Certification of biotechnological Products

Containers, packaging, storage, marking and transportation

THE MAJOR TOPICS OF THE SCIENTIFIC FORUM:

- ? Fundamental Investigations in Biotechnology: Training, Research, Product Development, Production
- ? Biotechnology In Food
- ? Biotechnology In Medicine and Pharmacy
- ? Biotechnology in Solving Problems of Environmental Protection, Biogeotechnology, Biohydrometallurgy
- ? Biotechnology In Veterinary and Agriculture
- ? Quality of Production, Standardisation

Exhibition and Forum Department – CONTACT:

13 Voronina Street, Saint Petersburg, 194100, Russia
